

Bill Operated Small Vending Machine

Description

Bill operated small vending machine is a kind of automatic vending machinery for selling various goods. There are five adjustable delivery channels suitable for five kinds of goods. Equipped with a waterproof steel cabinet and an openable front door, it is easy to install and convenient to maintain. It is often placed in public places, such as schools, communities, units, supermarkets, streets, and so forth. Bill operated small vending machine mainly consists of powder coated steel cabinet, coin acceptor, bill validator, system board, motor and spiral. This automatic vending machinery can accept bills or banknotes form different countries.

Characteristics

1. Pukui bill operated small vending machine realizes computerized vending and has sales record.
2. It is equipped with an extra large merchandise viewing window. Customers can easily and clearly know some goods information.
3. This automatic vending machinery has an easy touch button keypad.
4. The automatic mini vending machine is simple to operate and attractively designed.
5. This kind of small vending machine can diagnose itself automatically. The diagnosis results will be delivered promptly to the operator, which facilitates day-to-day maintenance.

Operation and Maintenance Attentions

1. We need to know the exact dimension of the products for vending.
2. Our company provides one year warranty for the broken parts of bill operated automatic vending machinery. Customers can contact us via email or phone for after sale service.

Packaging and Transportation

We package bill operated small vending machines in carton for ordinary order. For bulk order, we use polywood cases for sea or air transportation.
