

Pure Water Vending Machine

Description

Pukui pure water vending machine adopts America advanced RO water purifier technology. After 9-stage filtration and ozone disinfection, Purified water vending machine can wipe sediment, algae, residual chlorine, heavy metal, organic compound and bacteria in water. It mainly consists of RO membrane, filter, powder coated steel cabinet, coin acceptor, bill validator and system board. Pure water vending machine is also equipped with UV sterilization system. Enjoying economic, convenient and healthy advantages, Pukui purified water vending machines are often used in communities, companies, streets, subways, schools, etc.

Features

Power system adopts electric drive technology that makes the pure water vending machine run smoothly with no noise and low energy consumption.

Our purified water vending machines possess waterproof all-steel cabinets. They are durable and easy to install.

Precise water quality TDS monitor technology makes us know the water quality condition instantly.

Small and delicate size makes the pure water vending machine possible to be placed in various sites, such as communities, offices, cafeterias, schools, hospitals, waiting rooms, etc.

Water production capacity of our purified water vending machines is from 400 GPD (1500 L) to 3000 GPD (11350 L) per day. The water sales capacity can be flexibly adjusted according to customers' needs.

24-hour uninterrupted UV sterilization kills bacteria and guarantees healthy water quality.

Operation and Maintenance Attentions of Pure Water Vending Machine

Pukui provides one year warranty for the broken parts and offers excellent after-sale service.

We need to know the source water quality and choose a purified water vending machine with proper water production capacity.

Packaging and Transportation

We package pure water vending machines in carton for ordinary order. For bulk order, we use polywood cases for sea or air transportation.

Technical Parameters of Purified Water Vending Machine

Sub-Model	Daily Production	Power Input	Voltage	Source Water	UV Lamp	Ozone	Recycle Rate	Desalting Rate
RO-300-BZ-400	400GPD	220W	AC	Tap	20W	1000mg	30-45%	98%
RO-300-BZ-600	600GPD	260W	220V	Water	20W	1000mg	30-45%	98%
RO-300-BZ-800	800GPD	300W	50Hz/	Tap	20W	1000mg	30-45%	98%
