

# Standard Water Vending Machine

## Description

Standard water vending machine is usually placed in the community. This water vending equipment can automatically sell pure water. It provides 24-hour pure drinking water for customers. Adopting filtration and purification technology, this machinery can supply drinking water in accordance with national standards. Made from stainless steel and powder-coated steel, Pukui standard water vending machinery is extremely reliable and easy to service and maintain. This water vending equipment mainly consists of RO membrane, filter, powder coated steel cabinet, coin acceptor, bill validator and system board.

## Features

1. Customers can buy purified water by coin or IC card.
2. Standard water vending machine can handle source water with poor water quality.
3. With pre-treatment sand and carbon filters, this automatic water vending equipment realizes strong pretreatment and reversed flushing to reduce using cost.
4. Water production capacity is from 400 GPD (1500 L) to 3000 GPD (11350 L) per day. The water sales capacity can be flexibly adjusted according to customers' needs.
5. Equipped with digital water vend counter, this water vending machinery can record the vending situation.

## Operation and Maintenance Attentions

1. We need to know the source water quality and choose a standard water vending equipment with proper water production capacity.
2. Our company provides one year warranty for the standard water vending machine's broken parts and offers excellent after-sale service.

## Packaging and Transportation

We package standard water vending equipment in carton for ordinary order. For bulk order, we use polywood cases for sea or air transportation.

## Technical Parameters of Standard Water Vending Machine

Sub-Model	Daily Production	Power Input	Voltage	Source Water	UV Lamp	Ozone	Recycle Rate	Desalting Rate
RO-300-BZ-400	400GPD	220W	AC	Tap	20W	1000mg	30-45%	98%
RO-300-BZ-600	600GPD	260W	220V	Water	20W	1000mg	30-45%	98%
